About NQT Psychometric report

NQT Psychometric comprises of two sections, Personality trait test and Motivation test. The personality trait test is created based on Big 5 model theory which is widely used in the pre-hire assessment to identify job fitment of aspiring candidates. NQT Motivation test is developed based on motivation need theory. This test helps candidates to understand the professional needs and motivates them to work optimally and generate consistent outcomes at the workplace.

How to read this report

The report starts with an executive summary table of 5 personality traits and 3 motivation traits of a candidate with their respective score. The legend tables above help a candidateto understand the score. Based on the legend table and candidates' personality and motivation trait scores, the report gives an interpretation of the score. As the candidate reads the report, he/she may develop insights & suggestive action points that he/she may wish to consider for the best outcomes.
